

**Re.** : Amendment and Response to Office Action Mailed September 28, 2005  
**Appl. No.** : 10/692,141  
**Filed** : October 23, 2003

**I. AMENDMENTS TO THE SPECIFICATION**

Please replace the paragraph [042] with the following paragraph:

[042] With reference to Figure 2, an alternative embodiment of a folding table is shown. The embodiment of Figure 2 does not require the use of side rails 21. In addition, disposed between the mounting structure 11 and table top 1 is a handle 12. In the embodiment of Figure 2, the handle 12 includes a groove formed at the outer edge of one or both mounting ridges of the mounting structures 11. The groove may be formed in the bottom surface of the table top 1 or may be formed in the mounting structure 11. In addition, the groove may be formed during a blow-molded process which, advantageously, reduces the number of manufacturing steps and manufacturing parts.
